

# Remodelling Sale

Of Clothing, Shoes, Hats,  
Dry Goods, Notions, Etc.,

---of the---

## J. Rosenthal Co.

In order that we may as much as possible open up the fall stocks with everything absolutely new, to be in keeping with our new store, we have inaugurated this Remodelling Sale. It means that we will continue to sell our present stocks of goods at Clearance Sale Prices as long as the stocks last.

We have just closed contracts for new fixtures and furnishings for our store, which will be thrown into one immense big store, with all the modern conveniences of the city stores, and we want to grace these new fixtures with new stocks, and in order to do this we know that we have got to simply disregard the cost marks and fix prices on the articles that will make them move. This is a great opportunity to buy good, seasonable goods, every piece or article a real value at less prices than we can replace the same goods for. We will continue our sale right on through the process of remodelling and when the store is all completed we hope to have our new goods in by the first appearance of fall and pull off an opening display that will be a revelation to the people of Columbia and Maury County. We expect to add many new lines to our store and will appreciate every little help you give us either in buying goods or a word of praise for our enterprising spirit.

Sale Starts Friday Morning, Aug. 11, and Continues Indefinitely

## J. Rosenthal Co.

### LARGE AMOUNT OF TAXABLE PROPERTY IS FOUND BY BOARD

EQUALIZERS ADD ABOUT \$75,000  
TO THE ASSESSMENT ROLLS  
OF THE CITY.

### HAD NOT BEEN ASSESSED AT ALL

In Addition Have Raised Other Prop-  
erty About \$30,000 or More, Making  
A Total of More Than \$105,000  
Increased.

"Your statement in Wednesday's Herald that the city board of equalization added \$100,000 to the assessed property of the city is correct, but it should be explained," said Chairman Geo. W. Hayes, of the city board of equalization this morning. "The board added more than the amount stated to the assessment rolls of the city, but not all or half of it was through an increase in assessments. The major portion of this increased assessment came from the discovery of taxable wealth that had not been assessed for taxation by the city."

Chairman Hayes estimates that more than \$75,000 of taxable wealth was placed upon the rolls of the city by reason of the discovery of personal property that had been escaping taxation. One estate was not assessed at all, according to the chairman for personal property, but when the matter was investigated it was found that this estate was liable for taxes upon several thousand dollars of personality.

Chairman Hayes spent no less than five days at the office of the county register going over the mortgage records and in this way added several thousands of dollars to the taxable wealth of the city. Many mortgages for thousands of dollars payable to residents of the city, were found and there was no record upon the assessment rolls.

It is estimated by the chairman that the net increases of the assessment made by the board will total more than \$30,000 and that the picked up or newly discovered sources of taxation will go to more than \$75,000, so that the board really added to the taxable wealth of Columbia more than \$100,000, which would, at the tax rate of \$1.50, bring added revenues to the city of \$1,500.

### HOW HOG CHOLERA MAY BE PREVENTED AND LOSSES SAVED

DR. M. JACOB, STATE VETERINARIAN, GIVES FARMERS SOME SOUND ADVICE.

### DISEASE IS EASILY CARRIED

Cleanliness is One Of The First Requi-  
sites if Successful War is to be  
Waged Upon Disease Among Swine  
Of The County.

By M. JACOB, State Veterinarian. Do your neighbors' hogs have cholera? Then it will be well for you to look to it that your herd does not become infected from them. You can prevent the disease from coming to your farm, in most cases, by observing the following rules:

1. Remove all your healthy animals to an inclosed, uninfected ground or pen. This pen should be located so as not to be near a public highway, a railroad, a creek, or a stream.

2. Do not allow any communication between your hog lots and those of your neighbors, as cholera may be carried very easily on people's shoes.

3. Observe cleanliness, both as to the surroundings and the feed. Wagons that have been used to carry infected dead hogs will infect corn or other feed, and thus bring the disease to your farm.

4. Use disinfectants repeatedly and regularly in your hog pens, feeding troughs and buildings. Use a 3 per cent dilution of cresol. Frequent cleaning and burning of the litter in the hog pens will prevent any latent infection.

5. Do not put new stock, either hogs or cattle, with hogs already on your farm. Newly purchased hogs should be put in separate inclosures well separated from the herd now on the farm, and kept under observation for three weeks. Any horses, mules, cattle or sheep transported by railway may carry the infection to your farm by having been contaminated in public stock yards, pens, chutes and cars.

6. Burn all carcasses of dead cattle, horses, hogs, sheep or dogs on the day they die. Do not allow dogs, chickens or hogs to have access to a dead carcass. The feeding of a partially burned carcass is dangerous, especially that of a cholera hog. Hog cholera germs exist in the marrow of the bones and an entire herd may become infected from this marrow.

The dead carcass that is not burned immediately, attracts buzzards and dogs, that may have come from a farm infected with cholera miles away.

The burying of dead animals is very unsatisfactory unless they are covered with lime at the time they are buried. Hog cholera infection frequently occurs when dogs dig up hog cholera carcasses months after burial.

### MANY ASPIRE FOR CHANCE TO SERVE STATE AT CAPITOL

ANNOUNCEMENTS ARE EXPECTED  
TO FOLLOW MEETING OF  
COMMITTEE.

### PLAN FOR DIRECT PRIMARY

New Method Said To Be Favored By  
Some, But Chances Are That the  
Delegated Convention Will be the  
Favorite of the Members.

When the committee of the democratic party meets next Monday and arranges a plan for the nomination of candidates for the general assembly, it is expected that announcements for these offices will be made by a number of more or less prominent democrats who have a desire to "save their country" in the halls of the state's legislature at Nashville.

Almost every section of the county is represented in the "prominently mentioned," the prospective candidates and those who are in the "hands of their friends." There seems manifest a desire to avoid all former factional issues, to present a united front in the coming campaign. It is believed that this spirit will pervade the committee and that the rules for the primary or convention will be so liberal that any democrat, no matter what his previous alignments may have been, will be an equal change with any other democrat.

While there is some sentiment for the direct primary for the nomination of candidates for the house, a plan that has never been tried in this county, the general impression is that a delegated convention will be called, the delegates therein to be elected at a primary to be held a day or two in advance. The primary will probably be called for some Saturday early in September, with the convention on the Monday following. Delegates will be elected in proportion to the votes cast by the several districts for Wilson four years ago.

Because of the number of prospective candidates for the legislature and the activity of their friends some lively contests for delegates to the convention are anticipated. The committee next Monday, is also expected to provide for the selection of delegates to a senatorial convention. The indications now are that the senatorship will be conceded to Lewis county, although there is some disposition to name a Maury county democrat.

### TO INVITE FOX HUNTERS TO MEET

LOCAL ASSOCIATION WILL COM-  
VENE HERE ON NEXT MON-  
DAY WEEK.

Members of the Southern Red Fox club are called to meet at the Court House on Monday, August 21, for the purpose of making final arrangements for inviting the National Fox Hunters' association to hold its next annual meeting in Columbia. It is not improbable that the local association will send a representative to the meeting of the executive committee of the National society to carry a formal invitation and it is likely that Col. John W. Fry will be requested to perform this duty.

The call for the meeting on August 21, follows: "The members of the Southern Red Fox club and all others who may be interested in getting the National Fox Hunters' association to hold their annual meet here this fall are requested to meet in Columbia, Monday, the 21st, so as to make final arrangements for inviting the National Fox Hunters' association, which holds its meeting on August 22nd for the purpose of selecting time and place for their next meeting. Respectfully,

"W. T. FRASER, Secty.,  
"Southern Red Fox Club."

SEEMS POSSIBLE.

"I was surprised to find the sparrows in the country. I supposed they were strictly city birds."

"Perhaps they take a vacation now and then."

THE PLAIN FACTS.

"Then you have never said a cross word to your wife?"

"No, but I have let loose a few around the house addressed to nobody in particular."

THIN SANDWICHES.

"What's Flubdub up to?"

"He is going to entertain the company with a few tricks with cards."

"But those are our sandwiches he's shuffling there."

### CONVENTION LOST BY FOUR THOUSAND MAJORITY IN STATE

COMPLETE RETURNS FROM ALL  
BUT THREE COUNTIES SHOW  
ITS DEFEAT.

### NO CHANCE FOR VICTORY NOW

One Of The Missing Counties, Claiborne, is Said to Have Gone Against  
The Reform by Not Less Than a  
Thousand Votes.

Special to The Herald.

NASHVILLE, Tenn., Aug. 10.—With returns official or practically complete from ninety-three out of ninety-six counties, the proposition to hold a constitutional convention has been defeated by about 4,000 votes. Among the counties that have not reported is Claiborne, which is reported to have gone against the convention by not less than 1,000 majority.

There is seemingly no change now for the advocates of the convention to overcome the lead against it. The advocates of the proposition have about given up all hope and concede that no convention will be held in Tennessee at this time.

The vote in the rural counties against the convention was much heavier than had been anticipated and when the big counties, all of which went for the convention, were heard from, the opinion was general that complete returns would result favorably to the new constitution. But as county after county came in the convention lead dwindled.

### AIRMEN EXCHANGE RAID ON AERODROMES

ATHENS via London, Aug. 5.—Two German aeroplanes from the Dardanelles Friday flew over the island of Lemnos and dropped bombs on the aerodrome of the entente allies. The aircraft were driven off by the fire of British vessels.

NOT POETRY PRICES.

A lawyer recently filed a legal paper in poetry. But he charged legal rates.

### CRIMSON CLOVER TO YIELD BIG RETURNS FRANKLIN FARMERS

MORE THAN \$40 PER ACRE IN  
PROFIT, FOUND BY COUNTY  
AGENT FARRIS.

### IT BEAT WHEAT VERY BADLY

Prof. Farris Could Not Help Contrast-  
ing Results Achieved by Maury  
County Farmers and Those Who  
Tried Winter Cover Crop.

While Maury county farmers were making about six and a half bushels of wheat to the acre this season, worth some of it, less than \$1 per bushel because of the poor grade, the farmers of Franklin county were making six and one-half bushels of crimson clover per acre, which they are selling readily at from \$5 to \$8 per bushel and at the same time having winter pasture and improving the land.

The above observations were made this morning by Prof. O. L. Farris, county agent, who had just returned from a three days' visit in Franklin county. Mr. Farris found that there had already been threshed or hulled by the farmers of that county, figured at \$5 per bushel crimson clover to the value of \$54,900 and at \$8 per bushel to the value of \$80,000.

This land, he said, was sown both in red and crimson clover last fall by the farmers. It was pastured during the winter months and then in May the crimson clover was cut and hulled, yielding an average value of over \$40 per acre from the seed. This left the red clover, which will yield a fine crop next season.

Mr. Farris said that the work being done in that county by J. O. Flannery, the county agent, was simply splendid. He had been an inspiration to the farmers and much of the success of the crimson clover crop of the county was due to his efforts. He had also been instrumental in bringing to the county and selling to the farmers a car load of fine bred beef cattle.

LITTLE EVA.

"Why did you get rid of little Eva?"

"She could act."

"She could act, but her daughter couldn't. And she insisted that we

give her daughter an ingenue part."

### MAURY SCHOOL TELEPHONE BOYS

INTERESTING ACCOUNT OF THEIR  
WORK GIVEN IN SOUTH-  
ERN NEWS.

In the current number of the Southern Telephone News there is an interesting account of the Maury County High school boys who are taking the training course under the company. The following extract from the weekly report of Raymond Moore, of Culleoka, one of the party, is published:

"To begin with, I shall state that I am indeed well pleased with my past relations with the company and have never been treated nicer by anyone than by the officials both in Nashville and in Jackson. I also like my work fine, and assure you that I am putting forth every effort to make good with my company."

"Am now working under the direct supervision of Plant Foreman J. O. Smith, and have had some experience with several different kinds of plant work, including cutting undergrowth, pulling slack, stringing wire, resetting poles, digging holes, and have learned to climb; that is, to a limited degree. Have learned to make connections, tie in and a few such things. My hands did not exactly fit the handles of a hole digger at first, but are about to become adjusted. Have also helped to install and move stations and have helped to clear both toll and local trouble."

"Had quite a rough experience with poison ivy; was unable to do much work for a few days, as my hands and arms were swollen considerably, so I spent some time in the office of District Plant Chief B. K. Lawrence, and received some instruction and assistance as to classification and specification of work. I am studying 'Plant Bulletin No. 114,' and 'Specification Book No. 2235.'"

"If our 'Student Buttons' show up please send them to us. I am delighted with this town and the work here."

OUTSIDE HIS PROVINCE.

"What's the trouble between you and your beau?"

"Oh, we were building a nice castle in the air."

"Well?"

"I didn't mind him help building it, but he wanted to select the furnishings, too."

### HUGHES COMING TO NASHVILLE SEPT. 4

NOMINEE WILL BE ACCOMPANIED  
BY WIFE AND 26 REPUBLICAN LEADERS.

ST. LOUIS, Aug. 10.—That he may keep a speaking date at Nashville, former Justice Hughes Wednesday changed the date of his St. Louis speech from September 4 to September 2. The announcement was made by Joseph L. Babler, national committeeman from Missouri, on his return here from Chicago.

"Tennessee has been urging Mr. Hughes to speak in that state for some time," said Babler. "He does not want to disappoint them. That is why the change in the St. Louis date was made."

Hughes will speak in Nashville on September 4, the day he was to appear here, and in Louisville, Ky., on September 5.

Mrs. Hughes and twenty-six republican leaders and staff reporters will accompany Mr. Hughes to Nashville. It is said extensive preparations are being made in that city to entertain him. Society women, it is said here, will undertake to make the stay an interesting and enjoyable one for Mrs. Hughes.

### CAMP DES' RTERS HELD IN KNOXVILLE

DECLARE THEY LEFT BECAUSE

OF LACK OF FOOD—WILL BE  
SENT BACK TODAY.

CHATTANOOGA, Tenn., Aug. 10.—Seven East Tennesseans are under arrest here charged with being deserters from Camp Rye and probably will be sent back to Nashville today. The men are J. W. Bowman, Warren Cross, Fred Atkins, H. L. Hain, N. B. Burnett, Timothy Thomas and H. L. Burnett.

Six of them are from company M, of Tellico Plains, and the other is from the Athens company. The reason the men give for having left Camp Rye is "ten hours a day drill and nothing to eat." One of them said: "Two years at Fort Leavenworth would be better than any more time at Camp Rye."

### DISMISSED EMMA CARRELL CASE

WITNESSES SWORE THEY WERE  
IN A DIFFERENT PLACE WHEN  
WHISKEY IS BOUGHT.

The case against Emma Carrell arrested on a charge of bootlegging was dismissed in Squire Alexander's court this morning for lack of evidence against the woman. The warrant was sworn out against her at the instance of a negro man who claimed that he had bought the whiskey from the woman and had two witnesses who helped him drink it. When these witnesses were introduced they both swore that they were at an entirely different place at the time the whiskey is supposed to have been bought. There was nothing else for the court to do, but dismiss the case.
